

Congressional Summary Report Outline (for each JCTD)

- JCTD Title [**guidelines, example**]
- Year Started [**guidelines, example**]
- COCOM / User Sponsor [**guidelines, example**]
- Lead Service / Agency [**guidelines, example**]
- Coalition / Joint / Interagency Operational Problem [**guidelines, example**]
- Capabilities Solution [**guidelines, example**]
- Planned Schedule [**guidelines, example**]
- Overall Transition Strategy:
 - Accomplished to date [**guidelines, example**]
 - Planned [**guidelines, example**]
- Operational Use by the Warfighter (if applicable) [**guidelines, example**]
- Funding [FY20XX, OSD(AS&C), Total planned funding all sources] [**guidelines, example**]

This Page Left Intentionally Blank

Section Title: JCTD Title; Year Started; COCOM / User Sponsor; Lead Service / Agency

A1857-J-78

- **Guidelines:**

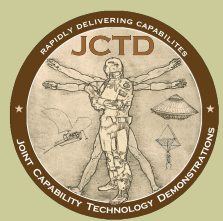

- Content: Identify:

- Name of JCTD
 - 1st approved fiscal year
 - Name of Commandant Command
 - Name of lead Service / agency

- Format:

	Word
Section Type	Narrative Lines
Section Length	4 Lines

All sections and information must be in 12-point type and no more than one page

Example: JCTD Title; Year Started; COCOM / User Sponsor; Lead Service / Agency

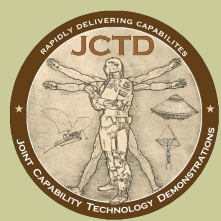

**Title: Maritime Automated SuperTrack Enhanced Reporting
(MASTER) JCTD**

Year Started: FY07

**Combatant Command / User Sponsors: U.S. NORTHERN Command
(NORTHCOM)**

Lead Service / Agency: Navy

All sections and information must be in 12-point type and no more than one page

Section Title: Coalition / Joint / Interagency Operational Problem

A1857-J-79

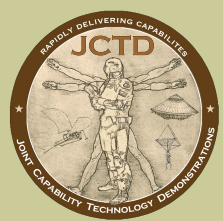

- **Guidelines:**

- Content: Describe operational deficiency(ies) that limit or prevent acceptable performance or mission success

- Format:

	Word
Section Type	Narrative Lines
Section Length	1 Short Paragraph Maximum

All sections and information must be in 12-point type and no more than one page

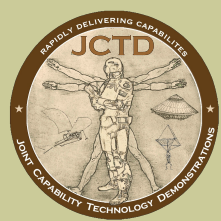

Example: Coalition / Joint / Interagency Operational Problem

Combatant Commanders are unable to maintain maritime domain awareness on a global basis and cannot generate, update and rapidly disseminate high- quality ship tracks and metadata on a 24/7 basis and at multiple levels of security. The process is manually intensive, time late, and too limited in number.

All sections and information must be in 12-point type and no more than one page

Section Title: Capabilities Solution

A1857-J-80

- **Guidelines:**

- Content:

- Identify:

- Key elements and components (e.g., sensors and processors, communications, systems, etc.)
 - Operational organizational components (e.g., local sites, national control centers, regional coordination centers, etc.)
 - Operational interoperability (e.g., external users (e.g., COCOMs, Services, DHS), international partners)

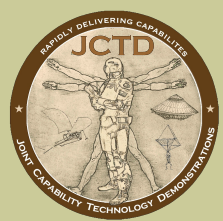

- Define:

- Operational and technical functionality / capabilities
 - Information and technologies usage and sharing (e.g., exportability, classification, etc.)

- Format:

	Word
Section Type	Narrative Lines
Section Length	1 Short Paragraph Maximum

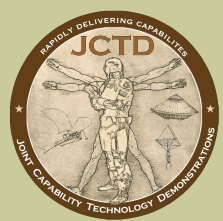

All sections and information must be in 12-point type and no more than one page

Example: Capabilities Solution

The JCTD will demonstrate the capability to automatically generate and maintain vessel tracks globally using all available data sources—(Top Secret (TS), Secret Compartmentalized Information (SCI), Secret and SBU) fused at the SCI level. It will automatically alarm and alert users to anomalous vessel behavior and threat conditions and disseminate SuperTrack intelligence (tracks plus metadata) to users at any security level.

All sections and information must be in 12-point type and no more than one page

Section Title: Planned Schedule

A1857-J-81

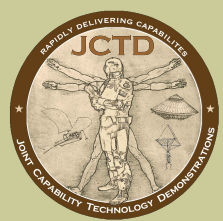

- **Guidelines:**

- Content: Identify:
 - Planned completion date for final operational demonstration
 - Planned completion date for JCTD

- Format:

	Word
Section Type	Narrative Lines
Section Length	1 Short Paragraph Maximum

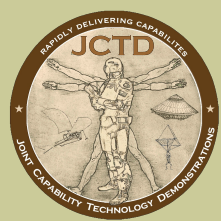

All sections and information must be in 12-point type and no more than one page

Example: Planned Schedule

Final Demonstration: FY 2009 JCTD Completion: FY 2009

All sections and information must be in 12-point type and no more than one page

Section Title: Overall Transition Strategy

A1857-J-82

- **Guidelines:**

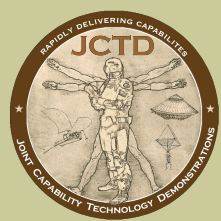

- Content:

- Define top-level overall transition strategy for JCTD including:
 - Accomplishments to date
 - Planned activities such as:
 - Extended Use of Interim Capability
 - Follow-on Development, Production, Fielding and Sustainment for targeted POR / Programs

- Format:

	Word
Section Type	Narrative Lines
Section Length	1 Short Paragraph Maximum

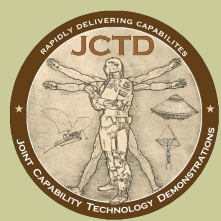

All sections and information must be in 12-point type and no more than one page

Example: Overall Transition Strategy

- **Accomplished to Date: JCTD Maritime Domain Awareness User Defined Operational Picture fielded to and in use by National Maritime Intelligence Center (NMIC)**
- **Planned: JCTD software and documentation products will transition to Distributed Common Ground Station-Navy (DCGS-N), Net Centric Enterprise Services, Joint Analysis Center and Global Command and Control System**

All sections and information must be in 12-point type and no more than one page

Section Title: Operational Use by Warfighter (if applicable)

A1857-J-83

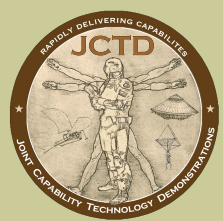

- **Guidelines:**

- Content: Describe operational use of JCTD capability in direct support of GWOT

- Format:

	Word
Section Type	Narrative Lines
Section Length	1 Short Paragraph Maximum

All sections and information must be in 12-point type and no more than one page

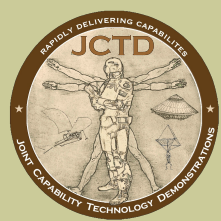

Example: Operational Use by Warfighter (if applicable)

JCTD Maritime Domain Awareness User Defined Operational Picture employed by National Maritime Intelligence Center (NMIC) and CNE-6F resulted in providing situational awareness and near-real-time tracks of three unidentified vessels in the Strait of Gibraltar resulting in capture of key terrorists and associated cargo.

All sections and information must be in 12-point type and no more than one page

Section Title: Funding

A1857-J-84

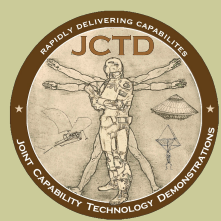

- **Guidelines:**

- Content: Identify funding as follows:
 - Current fiscal year funding provided by DUSD(AS&C)
 - Total planned funding from all sources
 - Illustrate in (\$millions)

- Format:

	Word
Section Type	Table
Section Length	3 Rows, 2 Columns

All sections and information must be in 12-point type and no more than one page

Example: Funding

A1857-J-85

Dollars in Millions (Includes Cash and In-Kind / Leveraged Funding)	
FY07 OSD (AS&C)	Total Planned Project Funding (All Sources)
\$3.5M	\$12M

All sections and information must be in 12-point type and no more than one page
